# To add Authority Solutions® to Search Console:
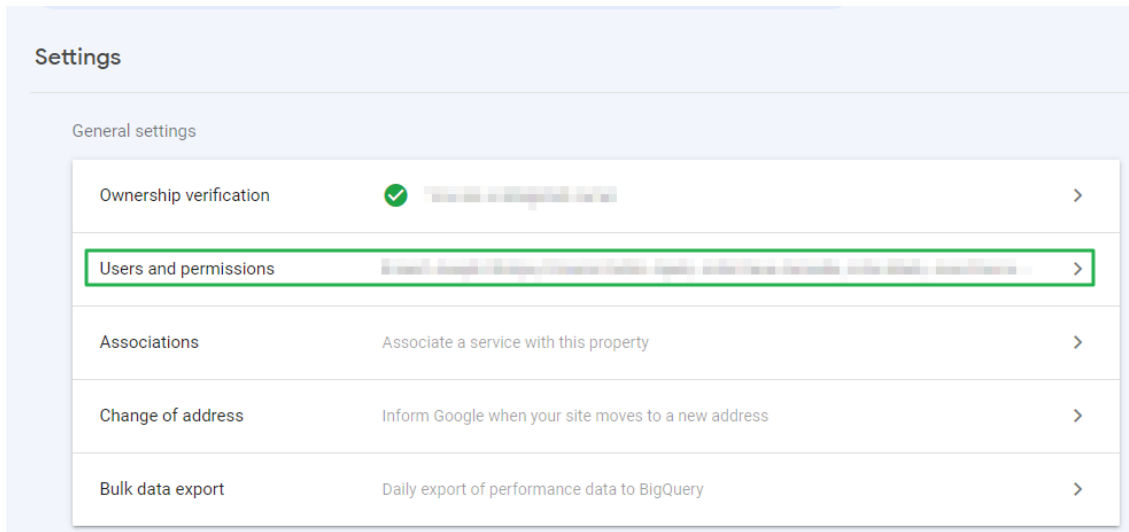

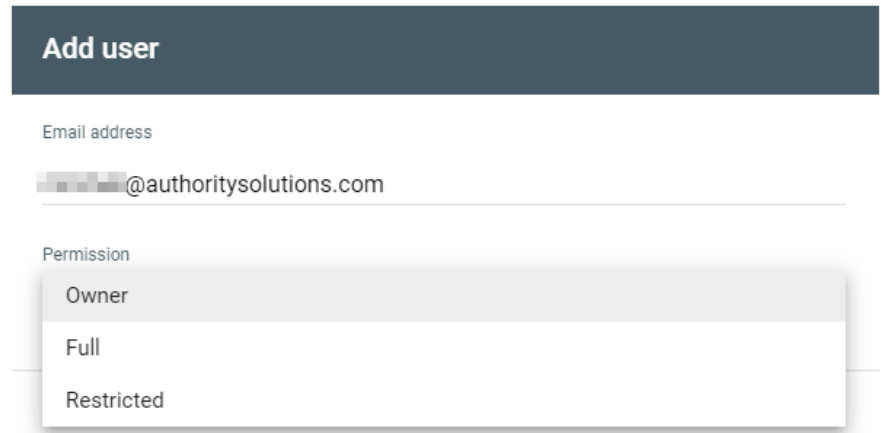

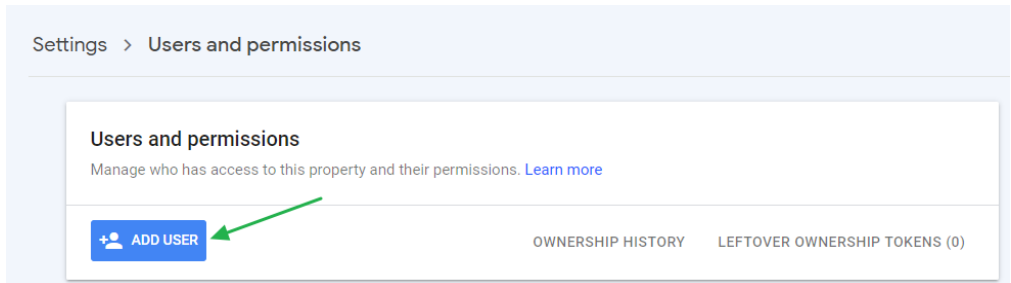

1. Choose a **property** in Search Console (overarching **Domain property - domain.com**, if possible, instead of a specific https/http/www version)

2. Click the Settings icon ⚙ in the navigation pane.
3. Click **Users & permissions**.

4. Click **Add user**, then type **loidie@authoritysolutions.com.**

5. Choose **"Owner"** permission level to grant the user.
